

Scheduling a COVID Vaccine

Find the list of providers at covidvaccine.la.gov and click on Vaccine Locations.

Select a provider. You can choose from any provider, not just those in your parish. Call the contact number to schedule an appointment.

For Walgreens, you must use its online scheduler: www.walgreens.com/findcare/vaccination/covid-19

Do not arrive at a location without an appointment. LDH does not make appointments for residents.

As more vaccines become available from the CDC, more individuals and groups will be offered a vaccination.

These vaccines are currently available to:

- Persons ages 70 years or older in the community
- Outpatient clinic providers and clinic staff
- Urgent care clinic providers and staff
- Community care clinic providers and staff
- Behavioral health providers and staff
- Dialysis providers and patients
- Home health service providers and recipients
- Dental providers and staff
- Students, residents, faculty and staff of allied health schools (if not already receiving vaccine or in a plan to receive from their respective schools)
